## GLOSSARY

[View Full Glossary](#)

- **First Owner**  
When the first owner(s) obtains a title from a Department of Motor Vehicles as proof of ownership.
- **Fleet Vehicle**  
Vehicle was registered or sold to a company that manages vehicle fleets.
- **Lease**  
When someone leases a car from a dealer, the dealer actually sells the vehicle to a leasing company. The leasing company then collects payments for the vehicle from the new owner for 24, 36, 48 or more months. A leasing company can be an independent car dealer or a car manufacturer.
- **New Owner Reported**  
When a vehicle is sold to a new owner, the Title must be transferred to the new owner(s) at a Department of Motor Vehicles.
- **Ownership History**  
CARFAX defines an owner as an individual or business that possesses and uses a vehicle. Not all title transactions represent changes in ownership. To provide estimated number of owners, CARFAX proprietary technology analyzes all the events in a vehicle history. Estimated ownership is available for vehicles manufactured after 1994 and titled solely in the US including Puerto Rico. Dealers sometimes opt to take ownership of a vehicle and are required to in the following states: Maine, Massachusetts, New Jersey, Ohio, Oklahoma, Pennsylvania and South Dakota. Please consider this as you review a vehicle's estimated ownership history.
- **Title Issued**  
A state issues a title to provide a vehicle owner with proof of ownership. Each title has a unique number. Each title or registration record on a CARFAX report does not necessarily indicate a change in ownership. In Canada, a registration and bill of sale are used as proof of ownership.

CARFAX has estimated the remaining original manufacturer warranty coverage based on information reported to us on this 1999 CHEVROLET K1500 (1GCEK19R1XR146646). Please confirm remaining factory warranty and extended warranty options with your dealer. Interested in an [extended warranty?](#)

**VIN:** 1GCEK19R1XR146646  
**Estimated start date of warranty:** 02/17/1999  
**Last CARFAX reading reported on 02/28/2009:** 110,594 miles  
**Today's Date:** April 17, 2009

Enter the current mileage and click 'Recalculate Warranty' to update the remaining warranty coverage.

**Enter current mileage:**

Type of Coverage:	Original Warranty:	Estimated Remaining Coverage:
Basic	36 months or 36,000 miles	Coverage expired
Drivetrain	36 months or 36,000 miles	Coverage expired
Emissions	24 months or 24,000 miles	Coverage expired
Corrosion	72 months or 100,000 miles	Coverage expired
Transferable	Transferable: no cost, unlimited owners covered.	Same
Roadside Assistance	36 months or 36,000 miles	Coverage expired
Safety belt & inflatable restraint	No data reported to CARFAX	
Specific Components	96 months or 80,000 miles	Coverage expired
Notes:	Manufacturer covers emissions components under basic warranty. Emissions coverage may vary by state. Refer to owners manual for specific details. Transferable: no cost, unlimited owners covered. Alignment and wheel balancing are considered maintenance after 7,500 miles. Basic warranty includes corrosion, batteries, adjustments, alternate transportation, roadside assistance, and tires. Roadside assistance is covered for 3 years or 36,000 miles	

► CARFAX Warranty Check provides an **estimate** of this vehicle's remaining warranty coverage. It does not take into account some vehicle history events such as some title brands that may void the original manufacturer warranty or ownership transfers that may decrease warranty coverage. This warranty information is only valid for vehicles manufactured for the United States. Complete warranty coverage information is available for this vehicle at the [CHEVROLET web site](#).

**NHTSA Crash Test Results**

The National Highway Traffic Safety Administration (NHTSA) did not test this vehicle model.

<b>Frontal Crash:</b>	<b>Rating:</b>
Driver	Not tested by NHTSA
Passenger	Not tested by NHTSA
<b>Side Crash:</b>	<b>Rating:</b>
Front Seat	Not tested by NHTSA
Rear Seat	Not tested by NHTSA
<b>Rollover Resistance:</b>	<b>Rating:</b>
Rollover Resistance	Not tested by NHTSA

The National Highway Traffic Safety Administration (NHTSA) provides 3 different ratings - [full-width frontal crash test](#) , [side impact crash test](#) , and [rollover resistance](#) . The frontal crash test indicates how well the safety features and restraints will protect an occupant in a head-on collision. The side-impact test conveys the chance of a severe chest injury, while the rollover resistance rating estimates the risk of rolling over in a single vehicle crash.

Front into angle barrier

### Front Crash Cost:

Not tested by IIHS  
Not tested by IIHS

### Rear Crash Description:

Rear into flat barrier  
Rear into pole

### Rear Crash Cost:

Not tested by IIHS  
Not tested by IIHS

### Average Damage Per Test

**Not tested by IIHS**

Insurance Institute for Highway Safety (IIHS) conducts four 5 mph crash tests to assess bumper performance. These results convey how well this 1999 CHEVROLET K1500 bumpers will protect the car body from damage in low-speed collisions. Low-speed damage repair costs are obtained from the Insurance Institute for Highway Safety, Highway Loss Data Institute.

## Injury, Collision, & Theft Indicators

### Index:

[Injury Index](#)  
[Collision Index](#)  
[Theft Index](#)

### Score:

48  
76  
137

### Rating:

Substantially better than average  
Better than average  
Average

These scores are stated in relative terms, with 100 being the average for all cars in each category. Scores greater than 100 represent higher risk in each category. For example, an injury indicator score of 122 means that a passenger in this model is 22% more likely to be injured in an accident. The injury, collision, and theft indicators for this 1999 CHEVROLET K1500 are provided by the Insurance Institute for Highway Safety, Highway Loss Data Institute. [Learn more](#) about these results.

[Back to top](#)

## Safety Recalls

### NHTSA Safety Recalls:

**Important:** The following recalls were issued for the 1999 CHEVROLET K1500 by the National Highway Traffic and Safety Administration (NHTSA). To find out if a specific 1999 CHEVROLET K1500 still has open recalls that require repair, CARFAX recommends contacting an [authorized dealership](#) for more information.

Recall date:	Not reported
Units potentially affected:	777,873
NHTSA campaign number:	00X001000
Defective part or component:	BRAKES: HYDRAULIC: DISC: CALIPER

Description: This is not a safety recall in accordance with the Safety Act. However, it is deemed a safety improvement campaign by the agency. Vehicle Description: 1/2 ton light duty pickup trucks. On certain trucks, failure to follow the service procedure set forth in the Service Manual for removal of the front brake caliper can result in movement of the front brake hose relative to its knuckle mounting bracket. If this movement results in increased length between the bracket and the banjo fitting that attaches to the brake caliper, it is possible for the brake hose to come in contact with the wheel rim. This contact with the wheel rim could, in time, cause the brake hose to become worn to the point that brake fluid leakage could occur. If this occurred, loss of front brakes is possible. Dealers will attach a notice label to the front brake hoses stating that the calipers must be supported when removed.

Recall date: Not reported

Units potentially affected: 90,242

NHTSA campaign number: 05V161000

Defective part or component: PARKING BRAKE

Description: On certain pickup trucks equipped with manual transmissions and built with either PBR parking brake systems or TRW parking brake systems, the parking brake friction linings may wear to an extent where the parking brake can become ineffective in immobilizing a parked vehicle. If the parking brake does not hold, unintended vehicle movement could occur, which could result in a crash. Dealers will install a low-force spring clip retainer for vehicles equipped with a PBR parking brake system. On vehicles equipped with the TRW parking brake system, dealers will install a redesigned parking brake cable assembly. The manufacturer has not yet provided an owner notification schedule for this campaign. Owners may contact Chevrolet at 1-800-630-2438 or GMC at 1-866-996-9463.

Recall date: Not reported

Units potentially affected: 804,000

NHTSA campaign number: 05V379000

Defective part or component: SERVICE BRAKES, HYDRAULIC: ANTILOCK

Description: Certain pickup trucks and sport utility vehicles may experience unwanted antilock brake system (ABS) activation. This condition is more likely to occur in environmentally corrosive areas. This recall will be launched in the ""salt belt"" states of Connecticut, Illinois, Indiana, Massachusetts, Maine, Michigan, New Hampshire, New Jersey, New York, Ohio, Pennsylvania, Rhode Island, Vermont and west Virginia only. This can cause increased stopping distances during low-speed brake applications, which could result in a crash. Dealers are to remove the wheel speed sensor and thoroughly clean the wheel speed sensor mounting surface on the bearing, apply rust inhibitor to the cleaned surface, grease the mounting surface, reinstall the wheel speed sensor, and check the peak-to-peak output voltage to ensure the wheel speed signal is within specifications. The manufacturer has not yet provided an owner notification schedule. Owners may contact Chevrolet at 1-800-630-2438 or GMC at 1-866-996-9463.

Recall date: Not reported

Units potentially affected: 805,368

NHTSA campaign number: 06V066000

Defective part or component: STRUCTURE: BODY: TAILGATE: HINGE AND ATTACHMENTS

Description: Certain pickup trucks have galvanized-braided-steel tailgate support cables used to support the tailgate in the full open (horizontal) position. Over time these cables can corrode and fracture when loads are applied to them. If one cable fractures, the remaining cable may retain the tailgate in a horizontal position. If both cables fracture, the tailgate would drop and strike the top surface of the rear bumper. If anyone is sitting or standing on the horizontal surface of the tailgate when both cables fractured, they could fall and be injured. On vehicles without a bumper, the tailgate may drop to a lower position. Dealers will replace the galvanized support cables with stainless steel support cables. In addition, dealers are to inspect the tailgate hinge and replace it, if necessary. The recall is expected to begin during April 2006. Owners may contact Chevrolet at 1-800-630-2438 or GMC at 1-866-996-9463.

Recall date: 10-06-1998

Units potentially affected: 8,367

NHTSA campaign number: 98V242000

Defective part or component: STEERING: POWER: GEAR BOX

Description: Vehicle Description: Extended cab 4-wheel drive pickup trucks. Some of these vehicles have a lower than specified torque on all three of the steering gear to frame attachment bolts. The bolts can loosen over time allowing the steering gear to move. This loosening can result in some unresponsive steering feel and some noise to the driver. If this condition is ignored, the steering gear to frame can wear and/or fatigue the attaching bolts to the point of breakage or the bolts backing out. If all the bolts break or back out, the steering gear would separate from the frame resulting in a loss of steering control. Dealers will retorque the steering gear to frame bolts to proper specifications.

This 1999 CHEVROLET K1500 safety recall information was provided by the Insurance Institute for Highway Safety, Highway Data Loss Institute and is derived from the [National Highway Traffic and Safety Administration](#) list of safety recalls. Please call the National Highway Traffic and Safety Administration Auto Safety Hotline at 1-888-DASH-2-DOT (1-888-327-4236) to report safety defects or to obtain information on cars, trucks, child seats, and highway or traffic safety. CARFAX does not review, validate or edit the information and statements provided by the National Highway Traffic and Safety Administration, which do not represent the opinion of CARFAX.
